## About the fees and charges

The Council fees and charges are used to fund the operation and maintenance of a variety of services provided to the community.

Fees and charges have predominately increased by the rate of inflation, however some fees have had to increase further to recover actual costs. The fees and charges support the estimated income levels included in the 2018–2028 Long Term Plan.

Scrap metal will be reviewed annually based on the metal market prices.

Maritime NZ is consulting on proposed changes to the Maritime Levy and fees. Changes may impact on the fee for vessels requiring a pilot entering Gisborne Harbour limits.

The fee for the trade waste discharge rate per cubic metre may change in 2019 after a review of the costs is completed.

### Major changes

- Cemeteries Fees and Charges were reviewed in detail and all charges have been increased between 7–9% using a cost recovery basis.
- The hourly charge out rates for Environmental Services and Protection have been updated to reflect the actual costs to provide service. The structure of the hourly rate charges has also been split out to provide more detail. For simplicity, where possible duplicate administration fee notes have been removed from elsewhere within the Fees and Charges document.
- New fees have been established for Resource Consents to cover costs that have historically been borne by the general ratepayer. Two new types of fees and charges include:
  - Record retrieval fee
  - Cancel consent charge.
- New fees have been established for Building Services to cover costs that have historically been borne by the general ratepayer these include:
  - Copy of Consent Notice (base fee)
  - Copy of each additional Consent Notice
  - Printing of Building Consent Plans
  - Entry of swimming pool inspection report from IQPI onto property file
  - Technical Peer Reviews
  - Code Compliance Certificate for large commercial
  - Consent re-activation fee – for building consents older than 5 years
  - Amusement Devices administration, processing and inspection at cost.
- Many Building Services fees have increased higher than the rate of inflation to recover actual costs. Fees have also been reviewed for Building Services that require digitisation of information to enable the service to be provided, with a view to putting in place any changes or increases so that Council can recover costs for digitisation. The fee for Scanning of Building Consent Plans has increased to provide incentive for applicants to lodge digital applications. Increases in this area have been capped at 30%.
- The majority of Environmental Health Services Registration fees have increased above the rate of inflation. Fees were reviewed and changes made to reflect actual time taken to process the services. The fees for Hazardous Waste Storage and Collection have been

**Note: All scheduled fees and charges are inclusive of GST (15%) unless otherwise stated.**

removed as these services are no longer provided. Increases in this area have been capped at 30%.

- Liquor Licensing Fees were removed for the preparation and lamination of public notices as this process is now redundant with all notices on the Council's website.
- The Animal Control dangerous dog fee has been aligned to 150% of the standard registration as set by legislation.
- Theatres on-charging of electricity costs has increased from 0.20¢ to 0.25¢ per kW.
- Stormwater and Wastewater fees were reviewed in detail in 2018. The Trade Waste consent application fees and renewal charges have been split out to provide more detail. Some fees have increased higher than the rate of inflation to reflect actual time taken for inspections. Changes have been made to the following charges:
  - Increase in Annual consent renewals fees
  - Increase in Wastewater Treatment Plant Septage Delivery fee
  - Decrease in the Trade Waste consent application fees.

**Fees and charges for Council's business units are based on sound commercial practice or cost recovery basis and are subject to change. These may be updated at any time during the year to meet changing market conditions.**

Payments may be made by credit card. An additional surcharge fee of 1.9% applies to each transaction.

Full details of the fees and charges can be found on the Council's website: [www.gdc.govt.nz](http://www.gdc.govt.nz)

The purpose of this report is to note proposed changes to the Council's fees and charges in relation to its statutory powers and duties. Where the report is silent on any fees and charges, those fees and charges remain unchanged.

Non-Standard CAR	This is a CAR that requires expert input from the Network Managers or Contract Managers. It may have implications for other roading activities. It may need interdepartmental consideration as well.
Non-Compliance	This is a charge for those working on the network that either do not have a CAR or are in breach of their CAR conditions.
Inspection per site	This is a fee for having network professionals investigate the worksite as required at completion, at the end of the defect liability period or other as required.
