

WASTEWATER

Activity 2

Wastewater around your home

1. Walk around your school and see if you can find a *gully trap*, *stormwater downpipe* and *wastewater vent pipe*. Remember, wastewater vent pipes are usually way up on the roof, so don't worry if you can't see one!
2. When you get home, see if you can find a *gully trap*, *stormwater downpipe* and *wastewater vent pipe* on your house. Ask your parents to help you draw a plan of your house and mark where they are.
