

Log Movements

A. Full length logs (18m?)

Felled in forest, topped to max length, transported to mill (JNL) via SH2 to Awapuni Rd (SH35) to McDonald Rd; or to Optilog from SH35 across town to own scale at Optilog Yard on Dunstan Rd.

Must be scaled immediately; Forest Levy \$0.27/m³; data to grower and to purchaser

B. Trees felled at site and cut to grade lengths: loaded on truck/trailer units, From the Northeast via SH35

From South and West (SH2, Awapuni Rd), North and West (SH2, Ormond Road, Waimata Valley Road, via Esplanade to Awapuni Road, Hirini St and thence port and scale (C3 or ISO); or Ormond Rd to Lytton Road to ISO scale, thence Awapuni Rd to port.

Also able to go directly to C3 scale at Matawhero Yard, then to storage at port, or Matawhero Yard.

C: Empties to the bush (trailers loaded)

D. Shuttles to storage yards (Optilog or Matawhero); otherwise to maintenance
